GINSENG.

THE subscriber wishes to purchase 20,000lbs. of good GINSENG, well washed, dried and sifted. Now is the time to gather it; and from the great quantities in the vicinity of Pittsburgh and the adjoining counties, and the easy manner in which it is collected, no greater inducements to honest and laudable industry has been offered. The Farmer who has a surplus of hands, perhaps too tender for more laborious work; the needy families who have to depend on the caprices of fortune for a temporary subsistence, ought now to leave their less profitable work and gather Ginseng, which will bring the Cash, necessaries of life, or *wearing apparel.* No matter how small the quantity of Ginseng, so that it is well washed, dried and sifted, and sound roots. The subscriber will attend to it. Those wishing to supply larger quantities, are informed that it must be in the above condition, and packed in tight casks of 150 to 200lbs each, and to be delivered in the course of the ensuing fall, to the subscriber, in Pittsburgh. Letters on this subject immediately attended to.

From the North American Journal.

AN UGLY WIFE OR A GIBBET.

The following amusing anecdote is copied from a MS. sheet of the Border Antiquities of England and Scotland, which is now in progress of publication, and to which Mr. Walter Scott is a contributor:

In the 17th century, the greater part of the property lying upon the the river Ettricke, belong to Scott of Harden, who made his principal residence at Oakwood Tower, a border-house of strength still remaining upon that river. William Scott, (afterwards Sir William) Son of the head of this family, undertook an expedition against the Murrays, of Elibank, whose property lay at a few miles distant. He found his enemy upon their guard, was defeated and made prisoner in the act of driving off the cattle, which he had collected for that purpose. Our hero, Sir Gidean Murray, conducted his prisoner to the castle, where his lady received him with congratulations upon his victory, and inquires concerning the fate to which he destined the prisoner:—"The Gallows," answered Sir Gidean, for he is said already to have acquired the honour of knighthood, "to the gallows with the marauder." "Houtna, Sir Gidean," answered the considerate matron in her vernacular idiom, "would you hang the winsome young Laird of Harden when ye have three ill favoured daughters to marry?" "Right, right," answered the Baron who catched at the idea, "he shall either marry our daughter, mickled mouthed Meg, or strap for it." Upon this alternative being proposed to the prisoner, he upon the first view of the case, stoutly prefered the gibbet to "mickle-mouthed Meg," for such was the nick name of the young lady, whose real name was Agnes. But at length when he was literally led forth to execution, and saw no other chance of escape, he retraced his ungallant resolution, and preferred the typical noose of matrimony to the literal cord of hemp. Such is the tradition established in both families, and often jocularly referred to upon the borders. It may be necessary to add, that mickled mouthed Meg and her husband were a very happy and loving pair, and had a very large family, to each of whom Sir William Scott bequeathed good estates, besides reserving a large one for the eldect. Translated for the N. York Commercial Advertiser.

PARIS, JULY 7.

The grand staff of the Allies, composed of about 300 Generals and superior officers, having Lord WELLINGTON at their head, went to the palace of the Thuilleries to present their homage to the King. His majesty received the assemblage of so many distinguithed officers with the grace and politeness which accompanies all his actions, they were presented and introduced to him in succession. The Monarch wore the order of the Garter. He afterwards addressed lord WELLINGTON in English in these words—"Mr. Duke, I owe you a personal acknowledgement for your humanity, and the good conduct of your army towards my subjects. I am pleased to bear you myself this testimony in the presence of your whole staff collected together." The King afterwards spoke to many of the officers. All retired gratified at the reception they had met with.

LONDON, JULY 22.

BONAPARTE, in a conversation with capt. USHER, whilst in Elba, remarked, that the duke of WELLINGTON was a good general—"The best in the world, sir," replied the captain. "You think so," rejoined the Corsican, "his lordship and I have never met." Since BONAPARTE's personal acquaintance with the Duke, he must have become a proselyte to capt. USHER's opinion.

When the duke of Wellington, then Sir A. Wellesly, first appeared on the theatre of his future glory, Bonaparte maliciously sneered at him as the "Indian general." We dare say, the "first captain of the age," would not be sorry if his Grace had continued an Indian general to this day.

Among Bonaparte's papers taken after the battle of Waterloo, was a list of 80 inhabitants of Brussels, whose persons and property were to be respected by the French army on its entrance into that city. Among these was a Flemish nobleman, who had prepared a splendid supper for Bonaparte on the 18th. Of the remainder several had prepared entertainments on the same day for his principal officers. Of this junta, the nobleman, who was to have been Bonaparte's host, has fled.

An article from Vienna of the 1st inst. says, "It is affirmed that the courts of Madrid and Naples have presented, thro' the medium of their ambassadors at this court, protests concerning several diamonds and valuable effects of every kind which the ex-Queen of Naples has with her, and have required that the valuable effects landed at Trieste shall be sequestrated. The most valuable vases, paintings, and antiques, have been carried off from the Museum at Portici, and these are reclaimed by the court of Naples.—The young marquis of Seracapriola, who lately arrived here from Naples, is said to be charged with this business. The court of Spain claims articles of great value, which Murat when he was at Madrid, took away, partly out of the royal palace, partly from the Escurial, particularly paintings of the Spanish school; these he afterwards brought to Naples, as well as the gold service of the Prince of Peace, which Murat secured when the palace of the minister was plundered, and which afterwards also found its way to Naples, but is now claimed by Ferdinand king of Spain, as the property of the state. It seems that the remonstrances of these two courts have met with a favorable hearing, since it is stated, that a few days ago, an order was sent to the government at Trieste, immediately to examine very minutely the abode of madame Murat, and to draw up an exact inventory of all the effects that she has brought with her, and to send it hither."

The Emperor Alexander has presented two swords, supposed to be the richest and the most splendid ever seen, to the duke of Wellington and prince Blucher.

"*Rochefort, July* 19.

"I can at length give you authentic particulars respecting the departure of the man who has done us so much evil. His last moments upon the French soil did not answer the expectation of his partizans. Why could they not all have been witnesses of them like us? They would soon have forgotten him.

"During his stay in the harbor, Bonaparte exhibited only weakness and hesitation in the measures that he sought to escape from his enemies. To his embarrassment and his anxieties, was joined an unsurmountable drowsiness that took possession of his senses. Both at the Isle of Aix, where he remained two days, and on board the Saal, sleep would overpower him even in the midst of conversation.

"The more pressing the danger became, the more his indecision became augmented. He distrusted the advice that was given to him to save himself.—The project of departing with the frigates had been abandoned, since the English commander had refused to let him pass. He resolved to defend himself at the Isle of Aix: he caused the 14th crew to be exercised for a short time, and the batteries to be prepared in case of attack; but by the confession even of his warmest partizans, eye witnesses, his energy had totally abandoned him; he had no more ideas.

"To the acclamations of our seamen, he answered that it was too late; that he had been left in ignorance of the *devotion of his marine*; that those corps ought to have been clothed, and that he saw plainly that Decres had deceived him like the rest. At last, in the midst of all his uncertainties, he takes a fancy to freight a Danish vessel, and to escape, if he can the English cruisers; upon reflection he relinquished that expedient; another is then employed: two French vessels are purchased for the sum of 1400 francs; they are armed in haste. Eight officers of the 14th, dressed as seamen composed his crew; they were commanded by M. Genty, captain in that corps. The role d'equipage, made out at the naval office, was sent on board. It was then believed that the measure was determined upon. Every thing was ready for setting off.—But M. Bertrand and his wife were in tears; they were affrighted at so perilous a voyage, undertaken in a frail bark of 12 tons.

"Bonaparte assembles on board the council, and enquires what are the dangers to which he is to be exposed. The commandant Philibert declares to him that he cannot be answerable for the success of the voyage; all the officers are of the same opinion. It is then that he takes the resolution of delivering himself up to his enemies, *thus terminating his bloody career with an act of cowardice.* On the 15th at 4 o'clock in the morning, dressed in the habit of a dragoon, accompanied by his suite he leaves the frigate. He had personally superintended the embarkation of his people and his effects. The wind and tide were contrary; he did not arrive until 6 o'clock on board of the English commander, who was at anchor in the road des Basques. He was very well received. Assuming a firm countenance he said, "the fate of arms led me to my most cruel enemy, but I rely upon his honor." Afterwards he questioned the officers respecting the force of the ship, and about her armament, and walked about all the batteries as if it had been a review. At this moment our people left him to return to the Isle of Aix.

"I can assure you of the accuracy of these details. They are not hearsay—I was present."

MONUMENTS OF ARTS.

The Prussian Commissioner General has announced to his Monarch, that he had required of M. Denon, director of the Museum, the restitution of the different works of art taken from Prussia; and that the whole were to be restored. "In consequence," he adds, "we are very busy in emptying the Museum. The picture representing ST. PETER on the cross, by Rubens, will be restored to Cologne."

From the Boston Centinel, Sept. 2.

FOREIGN AFFAIRS

IT was reported in Paris that a new Treaty of Peace had been negotiated; that the French limits were to be preserved; but that France is to pay all the expences of the war. The armies under Davoust, Suchet, and Clausel, having submitted, the war may be considered as ended in France; and G. Britain had promptly ordered its cessation at sea. The allies it appears, are to recover their *lost goods.*

LOUIS the 18th has adopted several strong measures. He had cashiered 30 of Bonaparte's prime abettors; he has ordered 19 marshals and generals, including Ney, Grouchy, Bertrand, &c. to be tried for *treason* before courts martial, and their property to be confiscated; and has directed that nearly 40 others, including Carnot, Soult, Maret, D'Anglais, and others be kept under watch in the interior, until the new Legislature can pass on their deeds.

EXTRACT OF A LETTER.

"BORDEAUX, JULY 28.

"It is said the treaty of Paris has been renewed between Louis 18th and the allied Monarchs, with the addition that the former is to maintain 100,000 of their troops in France for 5 years at the expence of 500,000,000 of francs. If the French people descend to such humiliating terms, the country may be tranquil by force of arms for several years.

"The white flag was displayed here on the 22d inst. and is now waving from the windows of almost every house in town."

Guadaloupe surrendered at discretion to Sir James Leith and Admiral Durham; Admiral Linois and Gen Boyer, with all the French officers, were deprived of their swords—the men of their knapsacks, and were immdiately embarked for France to be placed at the disposal of Lord Wellington. Gen. Boyer had already been sent off in the Neoli frigate; Admiral Linois had 36 hours given him to prepare, on account of his lady being being with him. These accounts were received at Antigua by an Express boat from Point Petre 13th inst.

NEW YORK, *Sept.* 1.

The hon. Messrs. Gallatin and Clay, our late negociators at Ghent, arrived in this city yesterday morning, from England, in the ship Lorenzo. These gentlemen, accompanied by Mr. Gallatin's son, and Mr. Todd, secretary of legation, came up yesterday morning in the cutter Active, capt. Cahoone, which vessel went down on Thursday during the gale. We do not learn whether they bring with them the Commercial Treaty, said to have been agreed on by the representatives of the two countries.

New York, Sept. 4.

BONAPARTE IN LONDON.

Capt. COLE, of the ship Savannah, who arrived here yesterday in 40 days from Havre de Grace, informs us, that on the 3d of August he was boarded in the English channel by a British frigate only 2 hours out from Plymouth; and that the commander of the frigate stated, that BONAPARTE *and one of his principal generals, had been taken from the Bellerophon, and sent to London.* He added, that he himself saw them on their way thither, under a very strong military escort. Most probably, they will be confined in the Tower, until a final decision shall be formed as to their ultimate destination.

Capt. C. is the bearer of despatches from our Consul at Paris to the secretary of state, and from LOUIS 18th, to the French minister in this country.

WASHINGTON CITY, *Sept.* 5.

TREATY WITH ALGIERS.

We understand that despatches have been received from Commodore Decatur, announcing the pleasing intelligence of his having, on the part of the United States, concluded a Treaty of Peace with the Dey of Algiers. With the conditions of the Treaty, of course we are unacquainted; but we learn, generally, that they are such as Com. Decatur thought proper to dictate.

Quarter Sessions of Chester County.
West Chester, Aug. 2, 1815.
Before Bird Wilson, Esq. president, and his associates.

The Commonwealth *vs.* John Crosby.

The defendant was indicted for an offence against public morals and common decency, in exhibiting to sundry persons a certain lewd and obscene book, containing very lewd and obscene pictures or engravings. The evidence established the fact beyond a controversy, that the defendant being in possession of a book of the description mentioned, carried it with him to a vendue, where a great number of persons were assembled, and there took occasion very frequently to exhibit the book and the pictures. The character of the book was established by the book itself, which had been taken from the defendant by some persons at the vendue, & was now produced to the jury. It seemed to excite universal disgust.

The defence principally relied upon was, that the defendant had not publicly exhibited the book, that is to say, to all who were assembled, but only to individuals, who from time to time he took aside to look at it. This defence, however, did not avail him. The jury, after retiring for a few minutes, returned with a verdict of *guilty;* and the court sentenced the defendant to pay a fine of $20, and to suffer *six months imprisonment* in the jail of the county.

We hope that this example may not be without effect; and we earnestly recommend to all our fellow citizens who regard the preservation of morals, as essential to individual happiness, to give their assistance in the detection and punishment of similar offenders.

Communications of interesting facts, known to individuals by their own observation, tradition, or otherwise, are also respectfully solicited.

To the Pennsylvanians, the committee particularly address themselves. Many interesting points of the history of our own state remain to be elucidated. Many important details are yet to be collected respecting the aboriginal Indians, the emigrations from various countries which have so largely contributed to the increase of our population, the history and peculiar tenets and rules of discipline of the different religious sects that are established among us. Information respecting these and other matters connected with the history of this state, and particularly every thing relative to our venerable patriarch and founder, Wm: Penn, and his first associates; their history in Europe and in this country; their political opinions, and views of civil government and policy, and the foundations which were laid by them for the prosperity and happiness which we now enjoy, will be received with peculiar gratitude. Our views, however, are not limited by the bounds of any particular state; this appeal is made to the citizens of the U. S. at large, and we confidently expect that those members of the American Philosophical Society, who reside in different parts of the union, remote from the city of Philadelphia, will zealously co-operate in promoting the objects of the committee, who will be happy to see their names inscribed on their roll, and will inscribe them whenever requested.

A FRESH SUPPLY OF THE FOLLOWING

GENUINE MEDICINES.

For the prevention and cure of Bilious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills.

THIS MEDICINE has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern and Middle States, particularly in New-York, Philadelphia, Baltimore, Petersburgh, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favor of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not indeed, presumptuously proposed as an infallible cure, but the inventors has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers will prove an infallible preventative; and further, that in the earliest stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these Pills is perfectly mild, so as to be used by persons in every situation, and of every age.

They are excellently adapted to carry off superfluous bile, and prevent its morbid secretions; to restore and amend the appetite; to produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual costivenesss, sickness at the stomach, and severe head-ache, & ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seamen.

HAMILTON'S

Worm Destroying Lozenges,

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions of foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The Lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS,

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz—The Teres, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms, are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose; convulsions; epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs, with lowness of spirits: slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens.—It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Hamilton's Grand Restorative,

The proprietor of HAMILTON'S RESTORATIVE DROPS confidently recommends it as an invaluable medicine, for the speedy relief and permanent cure of

Nervous Disorders
Consumptions
Lowness of Spirits
Loss of Appetite
Impurity of Blood
Hysterical Affections
Inward Weaknesses

Violent cramps in the stomach and back
Indigestion
Melancholy
Gout in the Stomach
Pains in the Limbs
Relaxations, &c.

The principal operation of this medicine is in the stomach, restoring the digestive power, and sending from that organ new health and vigor into every part of the system; it enriches and purifies the blood without stimulating, too violently, the nervous system; strengthens the secretory vessels and general habits, brings back the muscular fibres to their natural and healthy tone; and restores that nutrition which immoderate evacuations have destroyed, and whose loss had thrown the whole frame into langour and debility.

The Restorative is absolutely above all commendation in removing those weaknesses and infirmities with which many females are afflicted, the consequences of difficult and painful labours, or of injudicious treatment therein.

In cases of extremity, where the long prevalence and obstinacy of disease have brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh, which no nourishment or cordial could repair.

Perseverance in the use of this medicine has performed the most astonishing cures.

The Grand Restorative is prepared in Pills, as well as in a fluid form, which assists considerably in producing a gradual & lasting effect.

HAMILTON'S

THE GENUINE PERSIAN LOTION,

So celebrated among the fashionable thro'-out Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, (the basis of other Lotions) and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetters, ring-worms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural, insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth, and improving the complexion.

DOCTOR CHISHOLM'S
Anti-Bilious Pills,

Of a quality superior to any thing of the kind ever offered as a GENERAL MEDICINE, in this Country.

NOW prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India Islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates.

This extraordinary Medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of *Anti-Bilious Pills*. The extraordinary powers of this medicine as a solvent and evacuent of Bile, is without example; never producing debility or injuring the health, in the smallest degree, of the most delicate child or weakly female:

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excruciating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains* wherever seated.

A single Pill, taken every fourth hour with a cup of flaxseed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and DISEASES OF THE LIVER, no medicine ever yet discovered, has been known to perform such cures. Two Pills taken every third morning, will be found sufficient, unless costiveness prevails; in which case the dose may be increased according to the strength or constitution.

The *Dysentery, Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY *in Pittsburgh, by*
J. P. & J. W. SKELTON,
at their Wholesale and Retail Apothecary and Drug Store.

DOCTOR HANDY'S
WORM
DESTROYING LOZENGES.

A safe and efficacious medicine for destroying and bringing away WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary.—The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable medicine* has often been known to remove half a pot full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the readers time. We shall therefore only observe, for the benefit of those who are acquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times the belly is hard, painful and distended with wind—costiveness, head ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above Valuable MEDICINE, *is sold*, ONLY, *by*
J. P. & J. W. Skelton.
At their WHOLESALE & RETAIL *Drug Store, at the corner of Wood and Third Streets,*
PITTSBURGH.

PITTSBURGH
Manhattan School,
FOR
YOUNG LADIES & GENTLEMEN

MR. LOOMIS, respectfully returns thanks to his patrons for their liberal patronage since the commencement of his School in this place, and informs them and the public that he continues to teach both sexes Reading, Penmanship analytically, English Grammar, English Composition, Geography, with the use of the Globes and Maps, Drawing of Maps, Book-keeping, the Languages, &c.

The system of Education adopted in this School, will be that which is pursued in the celebrated Manhattan School, in the city of New-York, conducted by Mr. A. Picket, its successful founder; and which is acknowledged by men of the first literary reputation to be one of the best conducted Schools, in that city or in the United States. Here, about five hundred children of both sexes, comprising some of the best families in the city, constantly attend and are taught in such a manner as does the greatest honor to the teacher, and results in the happiest consequence to the pupils. It is of the utmost importance to teach children in such a manner that they will understand what they learn, and know how to apply it to the active pursuits of life. To give them words without accustoming them to attach some definite meaning to them, is, like blindfolding a man and commanding him to find a certain object; every effort leads him astray and renders him more uncertain of its attainment, so children if their minds are burdened with knowledge without understanding, find themselves uninterested in the pursuit, of course their progress in acquiring it will be but small: they must be brought to love learning if we would expect ever to teach them to good purpose, for the mind always eagerly mbraces that which it previously loves.

In this School every requisite attention will be paid to the learning and amiable deportment of the pupils, and no labour will be thought too arduous to form the young mind for future usefulness and respectability in society. The education of youth is difficult and requires unwearied attention and experience, for no man is born a teacher, it is an occupation which requires many years practice to become a proficient in the business. To his many years experience in teaching an extensive School and unwearied diligence, the subscriber looks for public patronage, pledging himself to a conscientious discharge of the duties incumbent on a teacher, he with confidence solicits the patronage of the public.

For terms of Tuition, References, &c. please to apply at the School Room, over Mr THOMAS ALGEO'S Store, Market Street

N. B. Young Ladies will be taught plain and ornamental Needle Work, in a separate apartment, by Mrs. Loomis.

Morning Tuition will commence on the 1st of May, for Penmanship, from 6 to 8 o'clock, at Six Dollars a quarter, payable in advance

P. S. On hand and constantly for Sale, ENGLISH QUILLS of the best quality, wholesale and retail.
